- Sourcing fabrics and trims from fabric mills locally and internationally
- Monitoring all fabric testing, understanding all test reports and ensuring the fabrics are fit for the purpose
- Working closely with the fabric mills on audits and ensuring compliance in all areas
- Working on products from initial design through to the final product.
- Development of fabrics, improve quality and fit for purpose, and liaise with those involved in the bulk manufacturing process
- Testing fabric and garments to ensure they meet the required standards
- Making recommendations to adjustments in fabric finishing processes for different quality concerns

Executive – Product Development | MAS holdings – Noyon Lanka, Biyagama EPZ, COL. 2010-2017

Largest apparel manufacturing firm in Sri Lanka, production facility with high level products with total of 75000 workers & joint venture of Noyon dentelles in France

- Plan the production process on daily basis with 48 members to produce high quality products
- Undertaking quality evaluations (pilot appraisal) of materials and checking the quality of the final product with the feasibility of the bulk production
- Develop best practices to improve production efficiency, quality and utilization
- Investigate problems, identify and analyze root causes and derive solutions.

- Implementing product development system, Quality Management System, Build In Quality & adhering to LEAN philosophy within the process
- Training people with ERP system (SAP) in total development process
- Facilitate the Quality Circles to enhance the quality level in the process
- Aligning team members in accordance with safety standards
- Guide the team members to accomplish production goals
- Evaluating the team for their skill levels
- Undertake research to find new ways of using yarns, look, feel, texture and durability
- Handling Jaquardtronic (high-tech & traditional),Textronic & Multi bar (high speed) Rachel machines- (MRESJ73/1, MRSEJF 53/1/24, JL83/1, JL65/1, JL83/1B , TL71/1/36, MJ85/1-B-Karl Mayer-Germany)
- Releasing Technical information to the production

EDUCATION | CREDENTIALS

- **Currently reading a Master of Science in Purchasing, Logistics and Supply chain Management (Msc), University of Bedfordshire, United Kingdom**
- **National Diploma in Technology (NDT) –Textile Engineering & Clothing- University Of Moratuwa, Sri Lanka**
- Certificate in Lead Executive Development Program
- Certificate in MOS Job Family Based Assimilation Programme
- Certificate in Web Designing for Word press
- Certificate in Product development for Warp knitting
- Non Destructive Testing Certification– Level II –ASNT-2016 – American Society for Non Destructive Testing
- Certificate in Quality management & quality circle system.
- G.C.E (Advanced level) – Combined Mathematics – C Chemistry – B Physics –C
- G.C.E (Ordinary level) – 8As, 1Bs, 1Cs

RESEARCH PROJECT

- **Institution of incorporated Engineers, Sri Lanka - Unit research project, “RPM, efficiency and rejection rate improvement in covered yarns for Jaquardtronic, Textronic, multi bar Rachel machines”**

COMMUNICATION AND TEAM SKILLS

- Well-developed written, oral and interpersonal communication gained through working in terms and ability to work independently with minimum supervision

Organization and Planning

- Well-developed skills in planning projects and meeting the deadlines and expected outcomes. Competent to research, analyses and synthesize information in an accurate and expedient manner.
